**Cable Band Activities**

Inspector: Victor Altamirano (8 hours reg.)

Date: 080812

**Field Work:**

(1) Gary's crew de-tensioned and adjusted cable band 98N given that the cable band was not installed in the correct position in the longitudinal direction and the rotation centerline was out-of-tolerance. Refer to Doug W. diary for detail of the work given that I was in the warehouse at Pier 7 with Roman G. when I was informed that the cable band was shifted. Refer also to my diary from yesterday.

**Office Work:** Worked on diaries.
